

Five keys to specifying a **Special Gas Venting System**

1. UL 1738 listed and labeled product

- Ensures product meets requirements of all appliance manufacturers
- Stringent testing ensures all aspects of the UL standard are met

2. Lifetime product warranty

- Vent will last the life of the appliance

3. Quick and secure joint connection

- Reduces contractor installation time and overall cost
- Long lasting and secure connection that will not leak

4. Rigid construction with heavy gauge material

- 24 gauge inner liner reduces number of supports and hangers required, lowering installation cost

5. Leak free guarantee

- Three (3) year leak free parts and labor guarantee
- Ensures your customer does not experience condensate leaks
